

Django Login und Registrierung

Einleitung Puthon Puthon

Kapitel III
Login und Registrierung

Lernziele Kapitel III:

Ich kann eine Django Registrierung programmieren.

Ich kann einen Django Login programmieren.

Ich kann einen Django Logout programmieren.

Ich habe verstanden, wofür Django Forms verwendet werden.

Ich habe verstanden, wie ich Django Tags verwende.

Ich habe verstanden, wie die migration durchführe.

Template

Der User ruft im Browser die Startseite auf und klickt auf Hyperlink "login"

Login

Model

<form method="post" action="">

{% csrf_token %}

{{ L_Form.as_p }}

</form>

{% endblock %}

Template

Lagerverwaltung

<u>Login</u>

<button type="submit">Login</button>
